

Who We Are

We are the future of Newton. We are the 21+ year olds who are just starting out in our careers - the young business owners, employees, and striving talent that will be the next generation of business leaders in the area. Why does all of this matter? It matters because Newton Young Professionals believes in a vibrant future for the city of Newton. We have a vision, and we work to support our future leaders by offering opportunities for professional development, networking, community service, and much more.
